

Where have all the fishes gone?

There are no fish in the sea

Text and musik Ted Ström 1970 / Text: Johan Palmcrantz 2008

Listen to the melody and look at the animation: www.ccb.se

1
Am Dm Am
When the bragging fisher tells us
Am G Am
How many fishes he caught
Am Dm Am
He exaggerates as he wishes

Am G
He says he caught a lot of huge
Am
fishes But....

REF
Am Dm Am
There are no fish in the sea
Am G Am
Not a singel one as we can boile
Am Dm Am
There are no fish in the sea
Am G Am
The sardine laid itself down in oil
Row , row to the fishing-bank
no fish as we have seen
Row , row to the fishing-bank
The fishes are only an empty
dream.

2
What we have sung ,up to now
Was written nearly 40 years ago,
what fish-poaching leads to -
even then we knew / Because of
a meagre profit for a few

3
Up to the end the fishing will
continue, /And the last fish will
lie in our coffin / Its without rime
ore reason / Soon there be no
more fishing season.

4
On land you may not kill all
the animals, / And that is lucky
to be sure / But there is no such
rules in the sea / You can kill
everything an yet go free.

5
Today There is trawler-fishing,
many fathoms deep /Never more
any herrings to your pint,
The Dead Sea was known before,
Now all the seas will die -
no seafood anymore

REF
On land you may not kill all
the animals, / And that is lucky
to be sure / But in the sea / You
can kill / everything an yet go
free.

Its without rime ore reason
Soon there be no more fishing
season / Its too stupid to be true
But still there is something we
can do

We can support Coalition
Clean Baltic

Demand a STOP for poacher-
fishing - Development of
sustainable Sea Fisheries.

Tell the world that poacher-
fishing is a theft. - And that's
why there are no fishes left!
